

Memory Care: Moments in Time Montessori-Based Dementia Program[®]

Our unique program encourages residents to thrive in a positive environment, enjoy meaningful life engagement, and continue in their social role. It allows residents to be

- as independent as possible
- able to make choices
- treated with respect and dignity

MOMENTS IN TIME

Without pausing and reflecting, moments in time will pass by all too easily. Meridian's Moments in Time memory care program is designed to capture our residents' special moments at any given time, to validate them, and to help them live in each of those moments. This is accomplished through the five directional paths of our Moments in Time program.

LIFE ENGAGEMENT DIRECTIONAL PATH

Life engagement includes scheduled programs that support the whole person. Our program allows residents with Alzheimer's and other Dementias to function at their highest potential, giving them a sense of purpose and well-being. Our Life Engagement program provides activities in an environment that is meaningful, purposeful, and success-oriented for the resident.

TEAM PROMISE DIRECTIONAL PATH

We embrace Meridian's 8 core values:

1. **Integrity** – We will act honestly in all that we do, adhering to the highest principles by pursuing a commitment to do what is right.
2. **Care** – We will demonstrate a nurturing, empathetic, and loving attitude toward others.
3. **Passion** – We will display an uncompromising intensity in serving our residents and families.
4. **Joy** – We will provide great delight and happiness by engaging our residents, families, and employees in the WOW! ExperienceSM.
5. **Loyalty** – We will be loyal to our employees, our residents, and our company.
6. **Respect** – We will respect the rights and dignity of all individuals.
7. **Accountability** – We will take responsibility for our actions.
8. **Excellence** – We will pursue excellence in processes, people, and procedures.

DINING EXPERIENCE DIRECTIONAL PATH

Mealtime is a very social event for our residents. In many cultures, meals are meant to be shared with family and friends, and our dining experience does just that. Meals and snacks present six daily opportunities, seven days a week to reminisce, create new memories, maximize independence, and promote socialization, all in an inviting environment.
